

A guided tour at the Art Park Gütsch

We offer you an exciting tour through the Park Gütsch, La Collection'air.

The Gütschahn was built in 1884 and presents nowadays one of the most important monuments in Lucerne.

During the tour you will get historical as well as technical information about the Gütschbahn.

We will tell you how it used to work and why its function was changed.

The Art Park is located next to the Chateau Gütsch. There are around 30 incredible sculptures which tell their own stories.

From the Art Park you get the best view to see the old town, Museggmuer, Lake Lucerne, the river Reuss and the Chapel Bridge – a great opportunity to take some exciting pictures.

You can also take a walk through the forest like Queen Victoria, Charlie Chaplin, Alfred Hitchcock and lots of other celebrities once did.
